# Obituary

IMPERIAL TOBACCO COMPANY OF CANADA, LIMITED

Attached to department is a relief staff who, besides substituting for absentes, take the places of those who temporarily leave their machines. Thus is continuity of production maintained, and undue fatigue avoided.

continuity of production maintained, and undue fatigue avoided!

And of course all things that make for cleanlines, comfort or safety are liberally provided. The buildings are well lighted, well heated, well ventilated, and on modern fire-prod construction. There are weah-rooms, lavatories and drinking fountains everywhere, all kept scrupblously clean. Sweepers, esrubbers and painters are constantly at work; cleaning up and brightening up. Dust removing and humiditying devices keep the air pure. Guards and safety devices are used everywhere to minimize danger.

Lockers, uniforms and lunch rooms, about which more will be said later, together with the medical and mursing services, and the life insurance and sick benefit features that have already been discussed, complete a picture of conditions that combine to make the daily round of the worker unusually.

# A "Bargain" is Sometimes a Bargain

A GOOD MANY PEOPLE look on August as their lucky monthand we don't mean those who spend it lying on the send and taking in sait air.

We meen those people who have formed the habit of buying things when other people aren't . . porch rugs and luggage and towels and lamps and all sorts of things, for use now and for use next se

Of course they have learned that "bargains" are not always bar gains. They know how to recognize quality and style and worth, how to find the strong points and how to avoid weaknesses. And much o° their knowledge has come from the advertisements in this news-

All of us follow advertising, but some people study it so thoroughly that they know exactly what they want and where to get it. They are the once who find the real bargains. Their money buys more things and better things—in August and all through the year.

LCO ERVICE ATISFIES Arthur A. Sills

Add charm to your home-

if you take pride in the environment of your home, you will realize that its beauty is not complete without the estiny smoothness of SATIN FIRISH Hardwood Flooring.

Satin Finish is made for any home, it just as appropriate for the smaller home it is for the mansion, and it costs no lore than ordinary flooring.

You will find that SATIN FINISH has been made to save you time and money; it will improve the appearance of your home and enhance its value

Satin Finish will give that touch of refinement that is no nettoeshie. In: the homes of refined people, no matter how humble the home, may be.

Arthur A. Sills Company

A "Bargain" is

Sometimes a Bargain

A GOOD MANY PEOPLE look on August se their lucky month-

We mean those people who have formed the habit of buying

Of course they have learned that "bargains" are not always bargains. They know how to recognize quality and style and worth,

All of us follow advertising, but some people study it so thoroughly that they know exactly what they want and where to get H. They

are the ones who find the real bergains. Their money buys more

things and better things—in August and all through the year.

and we don't mean those who spend it lying on the sand and taking in

things when other people aren't . . porch rugs and luggage and towels and lamps and all sorts of things, for use now and for use next season.

how to find the strong points and how to avoid weaknesses. And much of their knowledge has come from the advertisements in this news-

• Will Rogers is fond of saying: "Well, all I know is what I see in the paper". It is substantially true that all most of us know about current topics is what we see in the daily newspaper.

An unusual bond of friendship unites the reader and his newspaper, a relationship cemented by that wonderful thing we know as "News".

What is it?

News might be called the theme song of life. It is the sound of civilization's machinery in motion. It is the speed gauge of progress. It is the background of all thinking, all planning and all knowledge of current human affairs.

Because of this quality, when white paper leaves the printing presses carrying "the news", it has become an active force in its city, its country and the world.

In such an atmosphere of motion and virility the Daily Newspaper places within the hands of maker and seller the power of contact with this new-reading ublic—a power that is limited only by the adver-er's own ability to use it intelligently.

LOOKING BACKWARD

GLEANINGS FROM OUR FYLES

20 YEARS AGO SEPT. 10h., 1915

Mr. Harry Hamilton, an old Believille boy, who has been man-ager of the Merchants Bank at Espansville, Ont., has been tra-terred to Fort William, Ont.

Mr. Joseph H. Bills and wife of Louisville, Ky. are the guests of Mr. and Mrs. C. H. McMullen, Coleman Street, Mr. Bills is an old Belleville boy and has been cid Belleville boy and has been absent from the city for 37 years. For the past 38 years he has been accretary of the Louisville and Neabylle Sallway. When he lived in Belleville he was so-retary to the superintendent of the C. T. R. for lish division. As the superintendent of the C. T. R. for lish division and the superintendent of the old the superintendent of the old the superintendent of his old home town.

# **BODY POISONS SLOW YOU UP**

EVEN slight cases of constipation set up poisons in the body. Are you going through each day half-well . . . half the man you might be? Follow this simple suggestion start eating Poer's Bran Flakes With Other Parts of Wheat, coming root's firm Finnes with Univer Farts or whees, a a mild launtive. It may make a big difference in the way you feel—and look. Many call it the most deli-cious careal they know. Constitution due to insuffi-cient roughage in the diet should yield to Poet's Bran Flakes enten regularly. A component physician should Flakes esten regularly. A competent physician should be consulted for more stubborn cases.

### LIFE STORY of WILL ROGERS

By Scott Cunningham

EVERTRODY will praise you when you serve Kellegg's Rice spice. Their crispness and yor is comething to talk

short.
Children love to hear Rice
Krispies crackle in milk or
crosm. Let them have all they
want—those to asted rice
hubbles are nourishing and
easy to digest. Just the thing
for the sunsery supper. They
promote sound sleep.

Grooms everywhere sell Kellogg's Rice Krispies in the flother Goose story package. The more you buy the more terries you get. Made by Kellogg in London, Ontario.

## FIGHT NOT TO STOP MARRIAGE

LITTLE 'BURIES'

This new tire—espe-cially suitable for farm work—digs in and pulls on any road or surfacethrough mud, snow, sand, bad roads or no roads at all.

Note the deep, tough bars of rubber on this new tread that grip on any surface. These con-tinuous, unbroken bars carry the load evenly, ride smoothly and give long mileage and even wear. Another feature is that the tread is selfcleaning — after every bite the dirt is pushed out And, no matter how severe the operating conditions may be, the tread is guaranteed not to loosen from the body.

This new tire is made for trucks, tractors, farm implements and passen ger cars. Specify it on your new equipment or see the local Firestone Dealer for changeover,

Sincerity

The oldtime craftsmen were inspired not by "volume production", but by "sincerity". For 67 years Penmans knitted products have shown by their quality that unmistakable sincerity which has built an enviable reputation. The use of the best materials and careful workmanship are Penmans practical application of the ideal of sincerity.

## CANADIAN NATIONAL RAILWAYS. A Great Agency of Public Service.

The C. N. B. is one of the world's greatest transportation systems. Its length of reick a entitles it to that distinction, but its chief cleim rests upon the nature and enter the services is reader. While antering perceitally every important conter in Cas it also serves without diversible one distant stees, and in very many instances is the agency providing rathray activities.

The C. N. R. is a large direct employer of labour, and indirectly, by viruse of the nature of freight and other services, also enters importantly and indispensably into commercial and industrial activities of the Domision ... creating new wealth distributing raw and manufactured goods ... enabling more employment ways to be provided.

Notwithstanding the sparsely populated condition of much of the territory from which the C. N.R. Obtains its freights of grains, fininerals, forest products, etc., its charges for handage are very low... Canadian railway freight rates are probably the lowest in the world. On an average the C. N. B. receives less than one cent for handing a top of freight one mile.

Of every dollar of revenue received the C. N. R. pays more than one half to its employees as wages, and it purchases every year many millions of dollars worth of Canadian made or produced materials. The C. N. R. also pays in the course of a year over six million dollars in various taxes.

emonous course in the properties of the properti

During the present season the C. N. R. is presiding special faret and excursions between points throughout Canada. These are exceptional travel bargains. The mearest C. N. R. Agens will be glad to give full particulars.

## They Waited Too Long

 Official records show that 320,000 people who applied for life insurance in Canada and the United States in 1934 had waited too long and were unable to obtain a policy because of ill health.

DO NOT DELAY OBTAINING THE INSURANCE YOU NEED TODAY: MAIL THE COUPON The Islamed Life Assument Company or Committee Control of the Islamenton of the Islamenton and do not wish to make the talendar of welfing too less than the Islamenton place.

A recuir estimate of the matter state planny show grist and considerably in mose of these for two houses were the main flagrance of the state of the

# A "Bargain" is Sometimes a Bargain

A GOOD MANY PEOPLE look on August as their lucky month and we don't mean those who spend it lying on the eand and taking in

We mean those people who have formed the habit of buying things when other people aren't . . porch rugs and luggage and towels and lamps and all sorts of things, for use now and for use next-read

Of course they have learned that "bargains" are not always bargains. They know how to recognize quality and style and worth, how to find the strong points and how to avoid weaknesses. And much of their knowledge has come from the advertisements in this newspaper.

All of us follow advertising, but some people study it so thoroughly that they know exactly what they want and where to get it. They are the ones who find the real bargains. Their money buys more things and better things—in August and all through the year.

FRANKFORD

### Here's a way to save you work

■ Of course, Sunlight Soap will not do your mending for you. But we do know that when Sunlight is used regularly on washday there is much less mending to do.

While ordinary coarse laundry scape will injure clothes, Sunlight, being all pure scap, protects the material—cleanes it gently and surely, time after time, without weak-board wear and tear. Think a moment. Are you letting common scap send your laundry to the mending basket before its time?

a Next washed you have a bar of Sunlight. Notice it dissolves readily without hard rubbing—a sign of purity. See too, the lovely, thick suds—they go to work more quickly and wash more clothes than the weat, this suds from common soaps. That's economy, of course.

■ Look for the Sunlight \$5,000 guarantee of purity on every carton. That means protection, for Sunlight's pure gentle sade could never harm your clothes or roughen your hands. Millions of housewives will use no other laundry soap. Get a supply—you'll be delighted with your snowy white Sunlight wash.

## PUBLIC

anada has fifty-six thickly ettled cities-the centres of highest buying power - from which radiate all the important markets of the Dominion.

More than two million daily newspapers are bought by Canadians every day, for daily newspaper reading is a habit that has grown and fastened itself upon our national life.

All the play and movement of civilization, from the Arctic Circle to the Equator, from the mystic East to the heart of the ultra-practical West-the life of the world-is focussed in the newspaper every

The readers of the daily newspaper embrace every class of occupation, every income group-the woman in her home; the executive in his office, and the messenger boy sitting outside; great merchants and keepers of small shops; artists, artisans, financiers and clerks; to each and all the daily newspaper is an essential part of everyday life, the focus of all human activities.

Daily Newspapers help to sell more goods than any other advertising medium because they are read by more people.

Gee Whiz!

BATHED in sunshine and fine dust, Mr. Picobac, privileged member of the Essex Centre Riding and Driving Association . . . driving Maud Essex II (by Duke of Kent out of Norfolk Rose) . . . . . . drew up

"I think that last lap deserves a mild areas cool as wester smoke," said he. "What does your clock say, Henry?"

"Two-ten," replied the man with the stop-watch.

"Gee Whiz!" ejaculated Mr. Picobac: "Maud S. her-self never did the mile under 2,083/4."

"This is only a half-mile track," said the man with the

Obviously delighted with the result of the trial and proud of his driving, Mr. Picobac put his pipe in his mouth, all ready to commence the happy ritual of fill-ing it at the first opportunity from the Picobac pouch at hand in his pocket.

"Gee Whizi" said he again. "What's half a mile among friends?"

NEW YORK-CLOSE

New York, Sept. 21 (AP)—Mild rallying tendencies appeared in to-day's brief stock market session but there was still sufficient selling to keep the list somewhat off balance. The close was moderately irregul-ar. Transfers approximated 850,000

shares.

Despite the rejection by the Mus-solini cabinet of the League of Na-tions' peace proposals in the Italo-Ethiopian controversy, Wall Street saw hopes of a compromise and some short covering was based on this thosis.

some short covering was based on the covering was based on the covering was based on the covering was a self-self in ingread of Canadian Pacific ingread of Canadian Pacific ingread was an extra the covering was a small fraction. #### VISITING TOURISTS

VISITING TOURISTS

How important the tourist trade is to a country is fairly wall realized in Canada which devotes considerable attention to attracting visition to the Dominion through might of the appeal of its parks, its is not amiss to note how Germany even realized a large percentage of capenditures made by tourists. This latter fact ought to be proof enough to need to go to this extense, but probably it pays in Germany. A quarter of a million motorcars came into Canada during the recent holiday season to the country of the country of a million came into Canada during the recent holiday season into Canada during the recent holiday season into Canada during the recent holiday season which was not to the country of a million came into Canada during the recent holiday season which was not to be a million of the country of a million came in under the sixty day permit.

mit. Belleville has been able to see some of the results of this traffic though being on the front highway many of those who pass through are making long runs daily and skay in the country too short a time. But even these bring benefits. It is to be hoped that many rural parts of this district have profited by the influx of this products during the summer the same of the same

This Message Is For You

White Space . If You Run A Business,

Y ou, as a business man, are interested in profits. We, as a newspaper, are interested in helping you get them. We believe that furnishing profit-building ideas to make our white space more valuable to you is one of the biggest jobs we can do.

No one knows better than we do that no two advertising problems are precissly allian. But long we do that no two advertising problems are precisely allian. But long the control and give an avery wide understanding of the buying habits proceed to the control and a severy selling idea. The Ontario Intelligenced revergapers. And so every selling idea The Ontario Intelligenced reverse habits given the same test Has it tool goods to nowappear readice so the it? This testing saves your money. It avoids wasted effort. It is overy your year-yound selling cost.

Famous Meyer Both Service Free to You!

Many of these selling ideas are twice-tested. They are the ideas furnished by the Meyer Both advertising service; ideas that have been developed after research on a nation-wide scale good right now for merchants all over the United States and Geneda. No one else but The Ontario Intelligence advers may use these Reyer Both tested ideas in Belleville. No one else may utilise the Hillustrations, copy suggestions, syouts and merchandising plans which are your simply for the asking.

We want you to feel free to call upon our staff for help whenever you have an unusual advertising problem. Satisfying you keepe us in bread and butter. And that's what we're in business for.

The Ontario Intelligencer

Council Decides to Go Ferward With Preparation of Report Under Article XV of League of Nationa Covenant

WAY LEFT OPEN FOR CONCILIATION

If Report is Adopted Outbreak of War Mean
"Against Nations Within League And
Sanctions May Apply

By JOSEPH E. SHARKEY Associated Press Foreign Staff

Geneva, Sept. 26—(AP)—The League of Nations Council today gave notice to Italy and Ethiopia they can-not start war until Dec. 4 without violating the League

not start war until Dec. 4 without violating the League
Covenant.

It alianation will be deemed to have committed an
act of war signaint all members of the League of Nations
to the ready automatically calling for punishment by the
other nations.

The ready automatically calling for punishment by the
other nations.

The ready of the Covenant and
delgrades conspicuously absent—to draft a
report of recommendations for the settlement of the ItaleEthiopian conflict under article XV of the Covenant and
a decidion this article was in operation as from Sept date
and the covenant and the covenant and section the students of the September of the Septem

the Covenant:

The action was taken in intense excitement and in the space of 70 minutes.

#### SOLEMN MOMENT OF VOTING

By GEORGE HAMBLETON

Canadian Press Staff Writer

Century Spir-Far (CIT Cable)—The Council of the
Spir League of Nations this morning decided to proceed forthtions with with preparation of its report in the Italo-Ethiopian
dispute under paragraph. V, article XV of the League
the U.S.S. from the council table, brings the stage of the
Before the decision was taken the Italian delegation
one will be a stage of the council half and
walked out.

The council as a whele with the

The concell as a whole with the exception of the parties to the dispute constituted itself a committee to prepare a report and recommendations. While the report is in preparation the work of conclisation will continue. The committee of five which already just urned in a report to the council, remains in being. But if cound regard rails, if the council adopt parties to recommendations unanimostic parties to the council and the property of the council and the them, then she can be committed an act of war against Covenant. By so doing she committed an act of war against all other members of the League. Sanctions would apply.

DRIVER FAILS TO

MAKE ROAD TURN

The council took its grave decidon with few words. 
Anthony Eden, British Minister for the League, said, "the

The Purchase of The Bay Bridge

An event of extraordinary importance to this community was the purchase of the Bay Bridge from private ownership in the year 1920.

The bridge was first opened to traffic, amidst back in 1920. Men of vision and enterprise had promoted the project and gave generous subscriptions to the capital stock. The City of Bellewille made a grant of \$30,000 and the Township of Ameliashurg \$15,000. The total cost of the total cost of the total cost of the cos

BONES IN NECK BADLY CRUSHED

Evidence of Dr. Frankish in Cornwall Murder Trial

ingrivall, Ont. Sept. 26—(CP)—
I. Viney Belle Volvey and Olare Cameron went on trial today
the murder of the woman's
year-old farmer husband.

N-year-old farmer husband.
Mrz. Volvey, 26, and Cameroo, 28, are alleged to have killed the farmer and April 20 at his Bouville home. I on miles north of here. The charge separat the couple in which the man was found to that been cholded to death. Two have been cholded to death. Two his first indicating be died from a problem next after a fall downstein the charge of the charge

mann, the second he nke manner than the throughted.
Dr. E. R. Frankish, Calario Medio-legal expert, was the first witcess. He described Volvey's by pressure on the throat and said the pressure was so severe that it crushed both hyuld bones in the man's need, as condition he had over seen before.

autumn gowns

ESPECIALLY SELECTED BY NELLIE SMITH

We have always been known for justuations owns, but this Collection eclipses all peet seventations. Latest Paris in Gen' New York models introduce the Renaissance motificacycene galaxy of new rich colours and materials draped to yield the utmost in greatest lines and contour. Ornamels that are "works of art" enhance the healty of these creations. You can tell a samet, woman by the gown she wears, it is our pleasure to present that kind of modes.

gowns for the better dressed lady

### Get most for your money

DO YOU want the biggest pos-sible value in the corn flakes you buy? Here's why Kellogg's Corn Flakes always give you most for your money:

They're oven-fresh. No other corn flakes are protected by the patented Kellogg WAXTITE inner bag - heat-sealed.

Flavor-perfect. Only Kellogg's have that delicious goodness that everybody loves. No imitation has ever matched

Made by Kellogg in London, Ontario. That means the finest of ingredients. Immaculate cleanliness in manufacture. Guaranteed quality and purity. You know what you're getting in Kellogg's.

Because they represent true value, Kellogg's Corn Flakes have become the largest-selling ready-to-eat cereal on earth. You are assuring yourself and your family the best when you refuse a substitute.

Mrs. Parker has no telephone! Friends ring up her next door neighbor, Mrs. Strong, saying "Would you mind asking Mrs. Parker to come to the telephone?" Very troublesome for Mrs. Strong and humiliating for Mrs. Parker, Sometimes when she comes to the telephone in Mrs. Strong's living room the whole Strong family is present, embarrassed and unwilling listeders to Mrs.

Situations like this are uncomfortable . . and mostly unnecessary. A telephone gives convenient, vital service that none should be without.

G. W. Proctor

J. B. BOYCE,

## The Puchase of The Hydro System

The story of the equirement of the local Hydro-Slectric Systex by the citizens of Belleville its factaining survive. It is an account of an experiment in pilic ownership where the people have rapped earmous profits and been people have rapped earmous profits and the cost was a crassive. The bell for electric current were all of 500 er cent higher than they are now. There was little, encargement to make use of electric stores orther utilities. The cost was prohibitive.

GOVERNMENT OWNERSHIP

The Onlario Governibus purchased the Central Onlario, or Trent Herr System, from the Commer owners, the Elect Power Company, and Elect Power Company, and Elect Power Company, and Elect to consumers yere almost immediately reduced but they were till greatly higher than the prevailing charges 4 householders and commercial users in Westeri Onlario.

#### THE BELLEVILE CAMPAIGN

THE BELLEVIRLE CAMPAIGN

According the interndous importance of chasp electricity to denselic comments as well as the comment of the comment

#### A SURPRISING VOTE

A SUPPRISHING YOTE

Then camerhe vote. The ratepayers registered their wishes up ballot on Aug. 8, 1929, after a publicity campain that had lasted for six norths.

Looking bact upon it all now, one is amazed to think that any property-owner in Belleville colid he so blind to his own interests as to opportunities of funan nature. Where one could reasonably have expected unanimity there was a considerable vois in opposition for the bylaw and the majority of 303 in favor was by no means impressive. Will over half of the hossisholders impressive. Will over half of the hossisholders and voice.

#### CENTRAL ONTARIO CAMPAIGN-

CENTRAL ONTARIO CAMPAIGN
Then came ageneral canaping to clear up the entire hydro-electic situation in Central Ontario. The manager of the Bellevilli Camber of Commerce visited every municipality between Oblatical Control of the Co

TREMENDOUS GAINS AND ECONOMIES The financial gains to Bellevile from the six years of public ownership were isstant from the beginning and have grown to a tremendous aggre-

a accurate computation of the actual sav-ce the utility was taken over, six years ago, an impressive total of morethan \$600,000. Add to that huge total of \$400,000 another \$95,000, representing equity acquired in the Trent river generating system.

Add to that another \$54,000 of cash now lying in the treasury of the Belleville Hydro.

A grand total saving of \$749000 in 6 years, or at the rate of \$125,000 per annum! Were the comparison made with the rates in effect prior to 1916, the savings would be far more impressive

Further rate reductions will come.

Further rate reductions will come.

The campaigns to purchase the Bay Bridge and the local Hydro-Electric System were both inaugurated and carried through to a successful conclusion by

TO THE BUYING PUBLIC

PLEASE READ

While the politicians are pleading to you, the public, for your support in ing them to represent your interests at Ottawa, why shouldn't I as one of the pendent merchants of Belleville appeal to you for your business

We all know that with all the business places on Front street, the independent man is in the minority and I, as one independent merchant, often wonder how long the independent merchant will exist if we do not get the support of you, and you, the public.

The politician offers you a political platform and boasts that his is the best. I offer you a business platform and boast that it is to your benefit as well as mine to assist me in carrying out this platform of business methods. Times have changed, and business methods are different. The merchant to-day is puzzied to know what to buy so that the customer will be satisfied, and selecting a stock of Walpaper for the public to choose their needs from is not an easy task, even with the thousands of customers we serve, and satisfy each year, we still have our worker regarding the customer of to-day.

8 Styles have changed. Colors are softer. Homes are smaller, and with all this in mind we are going to install a new method in selling wallpapers. In our store we will carry a good used to realize some one who must have will paper at once we feel that out of this type feet will type waitinful. Aside from this stock we will carry a set of samples of every wallpaper manufactured in Canada and some European countries and by working on a mail order system we can have any of these papers in your borne within two days from the choose from. In this way you will have over a thousand different wallpaper to

This method will allow us to run our business on a more economic basis, thus allowing a reduction in prices on all wallpapers.

Allow us to prove to you that by purchasing goods this way you can have just what you want at prices lower than before.

In our store we have a stock of fine toys, well made, and not a European made loy among them. All loys have been tested and proven satisfactory, so that you can be assured or getting only the best when purchasing at our store. You would be well advised in buying toys now for Christmas, on the installment face.

We will carry a fine line of framed pictures. Our picture framing depart-nt turns out only the best class of workmanship. We have mirrors and will to any size you want.

It has cortainly been a great pleasure to be able to serve you during the two re I have owned this business and believe me when I say, your interests are over ours, first and always, and without your business we cannot succeed.

#### MINCE PIES The Acquisition of New Industries

Industrial expansion is the only means available for long-settled communities to promote growth in population and civic wait, the listory of the city of Belleville. Starting hopefully out as a newly incorporated urban municipality in 1878, Belleville boasted a population of 17,115. The rubure looked bright with promise. Many factories and milis contenting the community of the production of the paid and contenting the contention of the paid and of the paid and the contention of the paid and the contention of the paid and the paid the promise property of well paid and the paid to the paid and the paid to the paid and the paid to the paid to the paid and the paid to the paid to the paid and the paid to the p ented workmen

#### PIONEER INDUSTRIES PASSED OUT

PIONEER INDUSTRIES PASSED OUT

But Bellville industries were at that timeall of the early settlement type—inthehemile,
follow-fills, wayon-decorter, farm-implement
foundries, carding-miles and other manufacturing establishments of a simple character and
meant to serve the needs of the pioneers. And
meant to serve the needs of the pioneers and
meant to serve the needs of the pioneers and
meant to serve the needs of the pioneers and
meant to serve the needs of the pioneers with
their apecialized, processes and highly mechanized equipment
and the processes and highly mechanized equipment

there was appeared to Enderson the
their processes and highly mechantion. The processes and highly mechantion, the grainst for leadership and the reast or
panising ability required to bridge over the gabetween the pioneer workshop and the huge factories where automatic machines multiply efficcatchilly worked to the processes of the pioneer of the
control of the pioneer processes of the pioneer pioneer
for the processes and the processes of the pioneer
for the pioneer processes and the pioneer
cannot be processed to the pioneer
for the pioneer pioneer pioneer
for the pioneer pioneer
for the pioneer pioneer
for the pioneer pioneer
for the pi

#### THE PERIOD OF DECADENCE

On the other hand, Belleville, i hopelessly out-model shops and factories, one after another, languished and faded away, Property values declined. No new brillding took place, People emigrated from the city. The population which stood at 11,115 in the year of incorporation, 1878, was thinned down to 9876, thirty-three - years hinned down to 9876, thirty-three - years called the figures of the Dominion cross taken in 1911.

#### DROWSILY INDIFFERENT TO PROGRESS

It was this decadent condition and extremely discouraging outlook that faced the Belleville Chamber of Commerce when it was fifted organ-progress. Things looked had but nobody seemed able to do anything about it. The new Chamber of Commerce was viewed with misgiving and predictions of failure were freely made. TRANSFORMATION AND PROGRESS

TRANSFORMATION AND PROGRESS
The years have passed and the Chamber of Commerce can now look back on a record of accomplishment that gives arednt satisfaction and inspires hope for still greater things in the future. We now have a transformed Belleville. The population has grown from \$876 in 1031 to 14411 mund, date, majured buildings, burdoets, ancient actors-fronts, impure water, dilapidated actoods, empty dwellings and alones down at the heals, have given place to beauty, progress, cleanliness, the best in twentiethe-outury life. Houses for rental in Canada, Our mercantile establishments, in service, equipment, and appearance from the street reflect the finest in modern methods.

A GREAT INDUSTRIAL RECORD

### A GREAT INDUSTRIAL RECORD

Most important of all, we have laid a strong foundation for a great industrial future. We have succeeded far beyond what anyone thought pos-

succeeded far beyong what anyone thought pos-sible. In the past dozen years, no less than ten American manufacturing corporations, embra-ing twenty-one constituent companies, bear con-ing twenty-one constituent companies, bear city in our class in all Canada, even if we include places with double Belleville's population, has made so reinarkable a record. Size of the corporations, now represented here, are the greatest of their kind in the world.

#### IMPRESSIVE FIGURES

The latest available roper from the Department of The Statest available roper from the Department of the Statest available roper from the Department of the Statest available rope of the same authority, these industries paid out in varges in one year \$1,207,956 and for raw materials \$1,569,377. The value of their manufactured products was \$1,207,956 and for raw materials \$1,569,377. ### THREE GREAT ACCOMPLISHMENTS

THRE GREAT ACCOUNT CASTANCE.

The Clamber of Commerce has been the impiring and directing force that has dashled Reliefulls to copine this grand group of therities and expanding featured. Bay Bridge, brigging informatify increased trade and business to Bellewille, the acquisition of the Hydro-Electric Systems with resultant savings in elactric light-and power bills to our citizens of \$746,000 in years, the establishment here of this impressive list of the properties of the stabilishment here of this impressive list of the properties of the proper

new industries and branches of great industrial corporations, were results all brought about pri-marily and principally by the promotional efforts of the Chamber of Commerce.

#### HUNDREDS OF OTHERS

HUNDREDS OF OTHERS.

The three prica accompliaments described are merely three illustrations selected from hundreds of similar tasks, carried oye deficiently and unodentationally by the Chamber of Commerce and unodentationally by the Chamber of Commerce and the Commerce and Spirit and the Professional men of Belleville have and supported if with their means right through the worst depression that has, ever struck this earth. THE DETERMINATION TO DRIVE AHEAD

Better than reviewing the events of the past, is the determination to drive ahead. The future is our. The foundation we have already laid is broad and ample. The industries we have catabilished will of themselves bring others, just as money bears interest. Cities do not happen; they are built

bears interest. Cities do not happen; they are built by co-operation of Commerce works by co-operation of the commerce works by co-operation. The commerce works by co-operation of the commerce works by co-operation of the commerce works are worked to be more than be more successfully performed by collective affort than by individual enterprise.

Belleville needs the Chamber of Commerce. The Chamber of Commerce needs the sentimental influence as well as the financial support of every fulfillence as well as the financial support of every commerce.

citien.

A group of volunteer workers will call upon some of our citizens, not yet attached to the membership of the Chamber of Commerce, within the next couple of days. Welcome these public spirited men to your office or piace of business. Then availy journed of the opinion of business. The avail yourself of the opinion of the thembership and the commerce of the opinion of the thembership of the opinion of the opinion of the membership of the opinion opinion of the opinion opin
